Portfolio: altamashqureshi.github.io/portfolio

PROFESSIONAL SUMMARY

DevOps Engineer with 4 years of experience in CI/CD, AWS, Kubernetes, Docker, Terraform, Linux, Jenkins, Ansible, monitoring, automation, and production support. Proven success delivering zero-downtime telecom platform migrations, scalable cloud infrastructure (public and on-premise), high availability systems, and automated deployments across enterprise environments.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, EC2, EKS, IAM, S3, VPC, On-Premise Private Cloud
Containers & Orchestration: Docker, Docker Swarm, Kubernetes, Helm, ArgoCD
CI/CD & IaC: Jenkins, GitHub Actions, GitLab CI/CD, Terraform, Ansible, CloudFormation
Languages & OS: Python, Bash, Linux (Ubuntu, CentOS, RHEL)
Monitoring & Security: Prometheus, Grafana, ELK Stack, Kibana, Vault, SonarQube, Trivy
Collaboration: Git, JIRA, Confluence, Phabricator

PROFESSIONAL EXPERIENCE

DevOps Engineer / Deputy Manager

Jio Platforms Limited

Feb 2023 – Present

Navi Mumbai, India

- Led PAN-India 5G platform containerisation migrating critical workloads to Docker Swarm with zero downtime across public and on-premise private cloud environments; designed and maintained on-premise OpenStack clusters for telecom-grade workloads with high availability.
- Managed internal MANO platform for production deployments, lifecycle operations, reliability, and enterprise platform support (Jio Vault, CNOP, AIaaS) on hybrid infrastructure.
- Built and maintained Jenkins CI/CD pipelines for microservices across hybrid cloud, reducing deployment time and improving release consistency.
- Administered thousands of Linux worker nodes using Ansible for patching, configuration management, and automated health checks.
- Automated AWS and on-premise infrastructure provisioning using Terraform (EC2, EKS, IAM, S3, VPC, Auto Scaling) and developed Python/Bash tools to eliminate repetitive manual operations.
- Implemented Prometheus and Grafana monitoring dashboards with proactive alerting, reducing mean time to resolution for production incidents.
- Mentored engineers on Kubernetes, CI/CD, Linux, automation, and DevOps best practices.

DevOps Engineer (Consultant)

Quess Corp Limited – Client: Jio Platforms Limited

Jun 2021 – Feb 2022

Navi Mumbai, India

- Built and managed AWS environments (EC2, IAM, S3, EKS) and implemented CI/CD pipelines with Infrastructure as Code practices to accelerate software release cycles.
- Performed monitoring, troubleshooting, system health checks, documentation, and root cause analysis for production systems.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

Dr. Babasaheb Ambedkar Marathwada University

2018 – 2021

Aurangabad, India

Polytechnic Diploma – Computer Science and Engineering

Matoshri Pratishthan's School of Management

2015 – 2018

Nanded, India

CERTIFICATIONS

AWS Cloud Migration | Google Cloud Platform Fundamentals | Elasticsearch 8 and Elastic Stack | Build Automation and Continuous Integration | DevOps and Git Foundations | Introduction to Cybersecurity
